To be issued in conjunction with the Australian Football Match Policy

FEMALE FRIENDLY FACILITIES

Data are now recognised as a key driver when assessing
women’s rates of participation and involvement in sport. The data
show that girls are less likely to participate in sport than boys at
an early age. This may be due to a lack of female role models, a
lack of female coaches, or a lack of female-friendly facilities at
local clubs. As such, it is important that clubs provide
female-friendly facilities to encourage female participation in
sport. This may include:

- Providing female-only coaching sessions
- Allocating female-only areas within the club
- Offering female-only training sessions
- Providing female-only equipment

Incorporating female-friendly facilities into the club
environment can help to create a welcoming and
inclusive atmosphere for female players.

For more information or to receive assistance in
creating female-friendly facilities, please contact the
State Australian Football Association or the local
football club.
